VERVOER VAN WERKERS

TRANSPORT OF WORKERS

VERVOER VAN WERKERS

Hoewel daar maatreëls in plek is vir die hoeveelheid werkers wat in/op 'n voertuig vervoer mag word, versoek Agri Wes-Kaap egter dat die volgende voorstel as amptelike Agri Wes-Kaap-riglyn gebruik word:

Dat die voertuig waarin passasiers vervoer word, uitgemeet en duidelik met plakkers gemerk word sodat werkers een meter van mekaar af sit (sien foto onder).

Dit is krities dat die landbou nou alles in sy vermoë doen om sy verbintenis aan die veiligheid van almal op die plaas te beklemtoon.

TRANSPORT OF WORKERS

Although measures are in place for the number of workers who may be transported in/on a vehicle, Agri Western Cape requests that the following proposal be used as an official Agri Western Cape guideline:

That the vehicle in which workers are being transported, is measured and clearly marked with stickers to allow for workers to sit one meter apart (see picture below).

It is critical that agriculture does everything in its power to emphasize its commitment to the safety of everyone on the farm.
