## TO WHOM IT MAY CONCERN

The economy of South Africa is under extreme distress and that Agriculture not only contributes to the growth of the economy but to food security. The government has thus designated some Agricultural products and activities as essential services during the COVID 19 period. The auctions of all kinds of all livestock, cattle, wool, mohair, skins and hides are all allowed during the COVID-19 period. The sale of alcohol beverages of any kinds are strictly prohibited and the breaking of this ban may lead to the closure of that particular auction facility.
